

What is the CBE Education Plan?

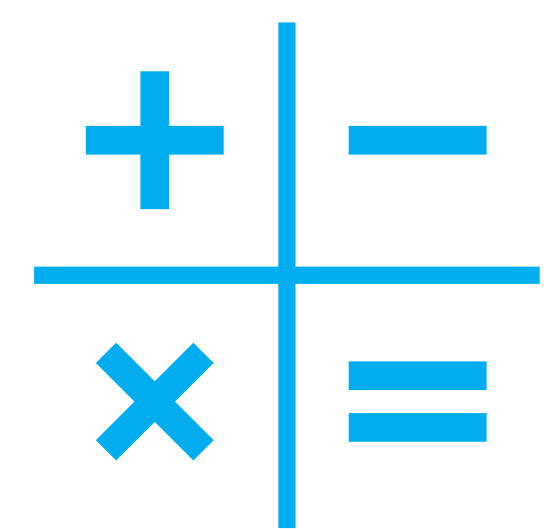

A plan, or roadmap, for how we can help each and every student achieve success.

Why does the CBE have an Education Plan?

The primary goal is to improve student learning. The plan also ensures the CBE is in compliance with the Alberta Education Assurance Framework, the *Education Act* and the *Fiscal Planning and Transparency Act*.

The Four Frameworks of the Education Plan

Within the Education Plan are four frameworks that describe our key areas of focus. These system-wide frameworks are research informed, will endure over time and are aligned with our commitment to student achievement, equity and well-being.

Mathematics | Students engage with mathematics through integral and essential processes such as problem-solving, reasoning, communication, connections and representation.

Literacy | The ability, confidence and willingness to engage with language to acquire, construct and communicate meaning in all aspects of daily living.

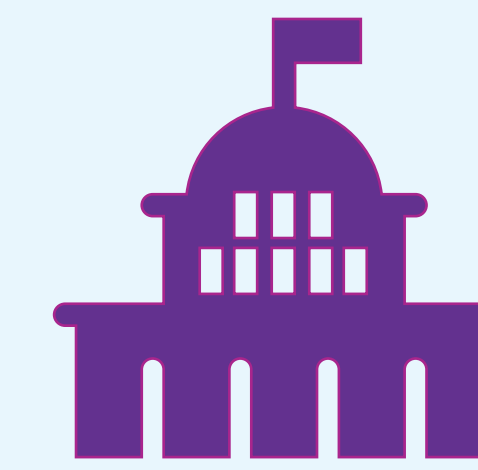

Indigenous Education Holistic Lifelong Learning | The value and importance of Indigenous ways of being, belonging, doing and knowing.

Student Well-Being | A balanced state of emotional, intellectual, physical, social and spiritual well-being that enables students to reach their full potential in the school community.
