

Calgary Board of Education Three-Year Sustainability Plan 2014-2017 Strategies

Personalize Learning	Build Professional Capital	Engage our Public	Steward our Resources
Support sustainability as a focus of inquiry related to all core subject areas	The CBE has a sustainability committee, office, and/or coordinator	Engage in imagineCalgary partnership through iC committees, events and trustee liaison	Actively manage and reduce waste, water and energy use
Develop and/or support curriculum that engages students as sustainability leaders	Contribute to broad-based professional learning and staff development focused on sustainability	Collaborate with external partners and initiatives that advance sustainability	Describe and implement an energy management program that includes benchmarking
Teaching and learning resources are available to support learning about sustainability	Contribute to professional learning related to student achievement of cross curricular competencies related to sustainability	Advocate for external sustainability experts, including corporate, parent, education service providers, to be engaged in curriculum development	Engage in energy performance contracts
Hold workshops and events related to sustainability, such as conferences, speaker series, or symposia, directed at student learning	Review policies and programs and suggest revisions to include sustainability principles and actions	Include stakeholders in EcoSites program redesign and rebranding	Investigate and/or install alternative energy systems such as solar PV, combined heat and power
			Align waste management practices with municipal requirements
			Conduct GHG inventory, establish 2005 baseline

Calgary Board of Education Three-Year Sustainability Plan 2014-2017 Strategies

Personalize Learning	Build Professional Capital	Engage our Public	Steward our Resources
<p>Develop and/or support wilderness or outdoor programs that engage students in developing a positive relationship with the world around them, and support relevant inquiry into sustainability issues</p>	<p>Embed sustainability into new employee orientation</p> <p>Coordinate programs for staff members to educate and mobilize their peers around sustainability initiatives and programs</p>	<p>Collaborate with other school boards to support and help build the K-12 sustainability community.</p> <p>Promote and support programs that engage staff and students in community service</p>	<p>Develop a definition and understanding of sustainable procurement policy and practice</p> <p>Develop plan and practice for reducing our dependence on petroleum-based fuels for transportation</p>
<p>Seek involvement with Chief Superintendent's student liaison committee</p>	<p>Recognize and celebrate sustainability initiatives</p>
