## About the School Fee Guide

The Calgary Board of Education (CBE) is committed to providing families with clarity and transparency regarding the fees associated with school activities. Clear communication about these costs helps families plan and manage their budgets effectively.

Developed in 2024, the *School Fee Guide* outlines the range of fees parents may be charged for extracurricular activities, complementary courses, and field trips. Our goal is to support students' diverse learning experiences by providing detailed information about school-based fees. These fees are separate from central fees, such as those for school supplies, lunch supervision, and transportation.

Each year, in keeping with provincial regulations, the CBE publishes a comprehensive list of fees on our website. This ensures that parents and the public are well-informed about the school fee schedule for the upcoming school year.

## Important information about the School Fee Guide

The *School Fee Guide* provides a range of fees that schools may charge for different activities. The actual fees charged may be less than the maximum amounts shown in the guide, depending on the specific circumstances.

Each school has the discretion to determine the fees they charge, and this means that while the guide outlines the maximum potential costs, individual schools may set fees based on their unique needs and resources.
