

Nov. 30, 2021

Parents and Guardians,

In the spring each year, the Calgary Board of Education prepares a report called the Three-Year System Student Accommodation Plan (SSAP). It identifies schools with student accommodation challenges over a three-year timeframe.

Accommodation challenges vary but some common issues include schools being too full, schools with declining enrolment or schools experiencing a shift in student demographics. Sometimes the issue affects only one or two schools, and other times a group of schools need to be considered together.

In developing the SSAP each year, CBE Planning examines the following on an annual basis: current trends of growth and attrition in CBE programs (including the regular program), the demographic composition of new and established communities, community growth/decline, birth data, census data and other variables. A geographical information system is also used to “geo-code” our students every year. This allows us to analyze the educational choices students make in relation to where they are living.

Our school has been identified in the CBE’s 2021-2024 SSAP.

Why is our school part of the 2021-2024 SSAP?

There are several schools in the community and changes may be needed to balance the kindergarten to Grade 9 enrolment between the schools. This is done to keep as many students as possible attending school in the community. We are monitoring enrolment to determine if changes are needed.

Accommodation planning is a collaborative process that allows us to carefully manage scenarios like this and consider all practical options.

What are some of the possible changes we could see?

Enrolment could remain stable and we would continue to monitor enrolment until concerns about one or more of the schools in the community being over capacity no longer exist.

Enrolment could continue to increase at one or more of the schools in the community and action may be required. This may include:

- a change to one or more of the school’s attendance areas
- a grade configuration change

When will we know more?

Some accommodation challenges identified on the 2021-24 SSAP will require attention this year. Some will be monitored and may not require action for a year or two or even longer. If a change is required at your school, you will be notified in advance. The CBE will provide another update in fall 2022.

How will students, parents and staff be involved?

Sometimes there are options to be explored with school communities before a decision is made. Other times there is really only one possible solution, which means school communities will not have opportunity for input on the decision. The appropriate level of involvement is determined by guidelines in the CBE's community engagement framework, called [Dialogue](#).

How will you communicate with us when you know more?

School principals will take the lead in circulating information to their school communities. When more information is available, your principal will communicate directly with you via email or a printed letter. The school will also post updated information to the school website, share information at school council meetings and communicate through other methods as needed. Principals will work with others at the CBE to provide school communities with the information that is important and relevant to them.

How will you communicate with families new to our school?

Information will be provided at the time of registration to help families understand that the school has been identified on the SSAP and there could be changes affecting the school in the future.

How can I learn more about the SSAP and how the CBE manages space for students?

Visit our [Managing Space for Students page](#) on the CBE website. If that information doesn't answer your questions, please email fes@cbe.ab.ca.

What if I have other questions specific to my school?

Please contact your school principal.
