your child can start in  
kindergarten or grade 1

## Is French Immersion the right choice for my child?

### Early French Immersion:

- Given how Covid-19 has impacted schools, is French Immersion the right choice for my child?

Yes! The Calgary Board of Education believes that every child is hardwired to learn languages. With highly qualified and committed teachers, your child's learning experience will be the best it can be regardless of how and where learning takes place. French Immersion teachers have been very successful using technology to connect, engage and continue to learn in both French and English.

### What are the benefits of learning an additional language?

- Learning French as an additional language offers students significant linguistic, academic and cognitive benefits. It opens doors to knowledge, communication, culture and travel, and gives students an edge in the global job market. It also:
  - increases a student's feelings of self-esteem and pride in knowing another language
  - enhances problem solving abilities
  - improves literacy and numeracy skills that transfer across English and French

### How can I support my child if I don't speak French?

- French Immersion is designed for students whose first language is not French, so you don't need any special skills. Your child's teacher is highly trained to teach French using research-informed strategies.
- Language skills are integrated and transferable. For that reason, talk, listen, read and write with your child in your home language and these will set a strong foundation for acquiring French in school.
- Help your child broaden their vocabulary in their first language.
- Have your child read to you in the target language and have them tell you what it means.
- To improve listening comprehension skills, have your child record themselves reading something and then listen to it.

learning | **as unique** | as every student
