Number of children	2
Grade of child(ren)	[REDACTED]

---

**Q2: In which new school project(s) are you interested?** Auburn Bay Elementary

---

**Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?**

Will the walk zone become smaller as the school becomes more populated?

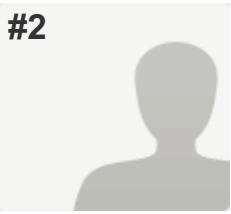

---

**Q4: Is there anything else we need to consider regarding walk zones as we move forward?**

Please adjust the walk zone accordingly each year so that children who have already been accepted into the school will never lose their spot to a new student.

**Q2: In which new school project(s) are you interested?** Auburn Bay Elementary

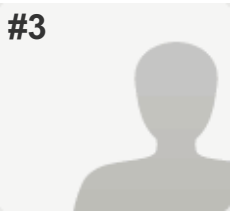

**Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?**

I'm disappointed that the whole community isn't a walk zone. I live three houses past the boundary of the walk zone and it's crazy that I would be expected to pay for bussing for that distance. I'm confident my children could walk to the school, given all the pathways and sidewalks in the area.

**Q4: Is there anything else we need to consider regarding walk zones as we move forward?**

Routes that include pathways!  
Also a major factor is Before & After care. I doubt we'll have a program at the school, so that means I need a dayhome - if they are in the walk zone do we get to be classified as walk zone even if our home is in the bus zone?

**Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?**

no

**Q4: Is there anything else we need to consider regarding walk zones as we move forward?**

The small busing zone seems pointless.. people directly across the street must walk for the sake of five meters just make ABAY a walk zone there are paths at cut throughs most drive to the bus anyway .or carpool with another parent that drives

**Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?**

It seems silly that there are only ~100 houses that would represent may 15 students outside of the walkzone, would CBE actually consider a bus just for these students?

**Q2: In which new school project(s) are you interested?** Auburn Bay Elementary

**Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?**

It is disappointing that infrastructure is so behind that even though today's time is promoting healthy time spent with family friends and loved ones, we unnecessarily put 5 year olds and up on buses

**Q4: Is there anything else we need to consider regarding walk zones as we move forward?**

If there was a little more foresight in what neighbourhoods are young ones and need schools, then all these walk zones wouldn't be necessary. (and it can be done because that's how people pick neighbourhoods they want to move to to have similar aged kids growing up around theirs.

**Q2: In which new school project(s) are you interested?** Auburn Bay Elementary,  
West Springs/Cougar Ridge Middle

**Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?**

The purposed walk zone is much too large to be effectively be considered a walk zone and should therefore be the school designated area. The walk zone should be south of OBCR, west of 77 street and north of Bow Trail. What students are really going to be walking from the outskirts (le Coulee way and west of 77 street) to West springs middle school? How are students going to be crossing OBCR and 85th street (pedestrian pedway overtop, tunnel) as these are both congested most of the time? is 85th going to have a traffic study preformed as this is a very busy road and how is the school going to impact traffic volumes and flows?
