

March 2017

Dear Parents/Guardians,

I am very excited to announce my new appointment as the assistant principal of Marshall Springs in Evergreen.

Some of you may remember me from my role as Learning Leader at Evergreen School where I taught most of the students who will be coming into grade 4 at Marshall Springs in the fall. Prior to that I was a language arts and social studies specialist for the Calgary Board and most recently I have been the assistant principal of Douglasdale School for the past three years.

As educators, we are working alongside a generation of passionate, resilient, active and creative students who are developing strong self-advocacy skills. I am looking forward to collaborating with Mr. O'Neill and the Marshall Springs staff to provide a developmentally responsive middle years program whereby student voice and empowerment are central.

I am reminded of a Barnett Berry quote, "We cannot create what we cannot imagine." I am energized as I imagine the journey we are about to embark on together!

Sincerely,

*Jennifer George B.Ed, M.A*
