## December Update | Prairie Sky School Construction Progress

Dear Parents/Guardians,

Last month we promised we would provide an update on Prairie Sky School's construction progress. Construction by Alberta Infrastructure is continuing. We still, however, do not know when the school will be ready to welcome students.

A lot of work has been completed in the past month, with some areas of the school still being constructed. Our team was on site last week and reported that construction crews were working hard on the elementary side of the school, the main gym, the learning commons, hallways and some classrooms. We have attached a few pictures on the next two pages for you to look at the progress, in the areas mentioned.

Some notable items that have been worked on since the last update include the following:

- Architectural finishes in classrooms have been started (millwork, ceilings, paint);
- Crews started commissioning ventilation units throughout the building;
- Crews started the installation of IT equipment.

Once the keys are handed over from Alberta Infrastructure to the CBE, it takes over a month to prepare a school this size to welcome students.

We understand that the delays in Prairie Sky School's opening are inconvenient for many of you. CBE is working closely with Alberta Infrastructure to support the construction process to ensure the school can open as soon as possible.

We will provide another update on the school's construction in early 2023. If you have questions or require additional information, please contact the Area 4 office at 403-777-6233 (extension 0) or [Area4@cbe.ab.ca](mailto:Area4@cbe.ab.ca).

Thank you for your understanding and patience during this process.

Sincerely,

*L. Nachtigal*

Lisa Nachtigal  
Education Director, Area 4

*Catherine Ford*

Catherine Ford  
Director, Planning
